E means excused and not counted in the vote count*

### **House Floor and Committee votes**

ESHB 1846 – Data centers tax preference. Mandates the use of PLAs to take full advantage of tax breaks. Signed into law. AGC opposed.

2SHB 1988 – Clean technology tax preference. Mandates the use of PLAs to take full advantage of tax breaks. Signed into law. AGC opposed.

ESSB 5714 – Solar canopies tax deferral. Mandates the use of PLAs to take full advantage of tax breaks. Signed into law. AGC opposed.

ESSB 5974 – Transportation resources. Vote was on final passage of resource component of \$16B transportation package. Signed into law. AGC supported.

SSB 5975 – Additive transportation funding. Provides funding for \$16B transportation package. Signed into law. AGC supported.

HB 1837 – Ergonomics. Would have allowed unworkable new rules from L&I even though employers are already required by law to provide a safe working environment for all employees, and ergonomic injuries are covered by workers comp. Passed Labor, Commerce and Tribal Affairs Committee but went no further. AGC opposed.

ESHB 1770 – Net-zero buildings. This bill would have duplicated the state's existing cap-and-trade regulations, thereby adding cost with little environmental benefits. Passed Environment Committee but went no further. AGC opposed

ESSB 5761 – Wage and salary information. Mandates the posting of salary and benefits within job announcements. Signed into law. AGC opposed.

E2SSB 5764 – Apprenticeships and higher education. Improves pathways for those interested in moving from apprentice programs to 2- or 4-year education. Signed into law. AGC supported.

ESSB 5873 – Unemployment social costs. Reduces unemployment insurance rates by reducing social tax component for two years. Signed into law. AGC supported.

HB 1776 – Prevailing wage on high hazard facilities. Would have required prevailing wages on private construction projects, in this case high hazard facilities (eg, refineries). Passed Labor, Commerce and Tribal Affairs Committee but went no further. AGC opposed.

SHB 1103 – EPD and labor requirements. Would have required the collecting of environmental product declarations – for which the supplier community is not ready – and required onerous labor reporting. Passed Capital Budget Committee but went no further. AGC opposed.
